

Issue One August 1999 - topics that will be covered:

- Everyone's talking about **the opportunity of E-commerce** - how do I know if it will work for me?
- **The GST** is coming - how do I make sure it doesn't cost me any more than it needs to, the experts are saying it will be more expensive than dealing with Y2K?
- I am about to **implement a new project** - is it possible to do so on time and on budget?

Is it hype? GET THE FACTS!

Complete the survey below and get the results in the first issue of DISCOVERIES.

How will these events impact on your business - if at all?

1=No interest 2=Of interest 3=Significant 4=Very significant

DISCOVERIES

The electronic business bulletin that delivers information crucial to the success of your business.

Those executives who seek out new knowledge, beyond their current store of information and beyond their immediate concerns are responsible for the greatest advances in their own careers and the success of their organisations.

DISCOVERIES *in a nut shell*

You nominate the areas that are mission-critical for your business. DISCOVERIES then provides relevant and concise information from:

- An experienced editorial team,
- People who have faced the issues you face and have dealt with them successfully,
- World leading vendors with products that will keep you ahead of your competitors.

ALL THIS DELIVERED DIRECT TO YOUR DESKTOP

Convenient

Delivered straight to your desktop every 2 months.

Relevant

Personally tailored to the areas important to your business.

Credible

Learn from others who have found success with the solution you are seeking.

Experts

DISCOVERIES is prepared by industry leaders in business and technology. Chief editor, Tim Mendham (previously editor at CFO Magazine) has successfully helped people such as CFOs, MDs and MIS Managers over the last 15 years work through the real issues of "doing business in the information age." As a consultant, a journalist, and an editor, Tim's forte has been the deliverance of practical advice and the ability to cut through the hype surrounding technology. Drawing on his wealth of experience and the findings of analysts, Tim will offer candid reviews of issues and technologies in the marketplace in which you do business.

Colleagues

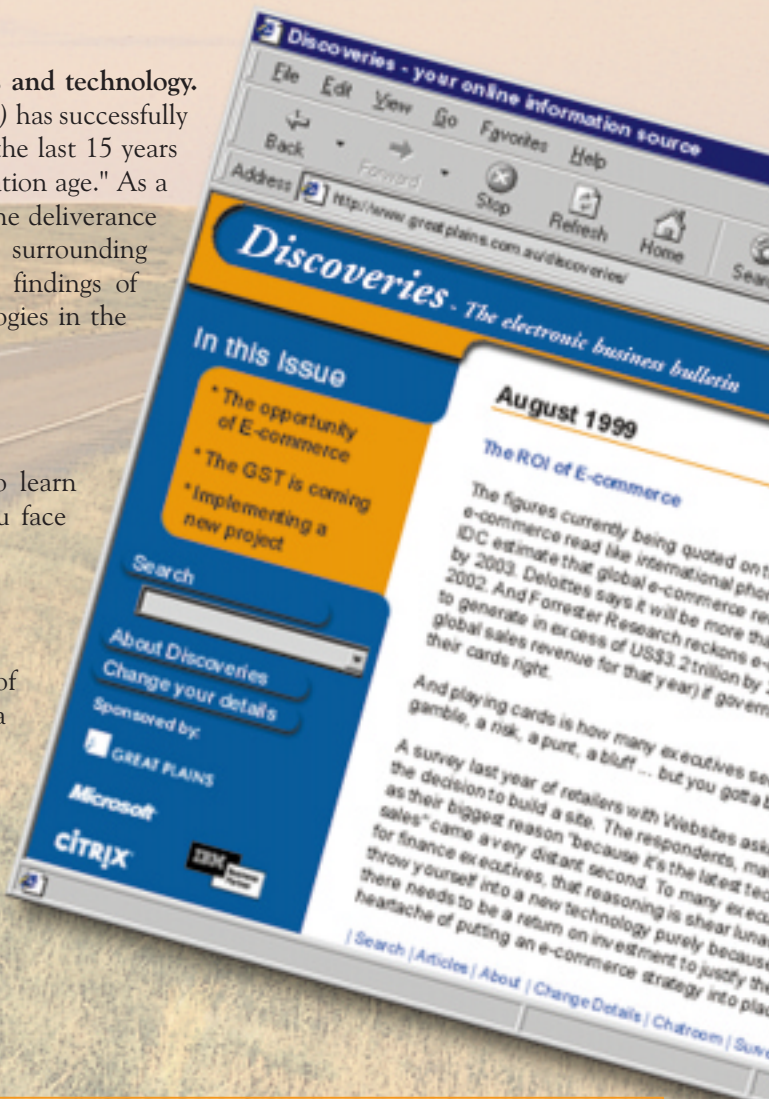

DISCOVERIES features local case studies enabling you to learn from people who have successfully dealt with the issues you face today.

Partners and resellers

DISCOVERIES is supported by a dedicated group of professionally trained business partners throughout Australia and New Zealand.

Vendors

DISCOVERIES is brought to you by Great Plains in partnership with other world leaders in technology, Microsoft, IBM and Citrix. Learn about the latest technologies and how they fit into the "real world of business."

DISCOVERIES is available on a subscription only basis.
